

January 2025

DECLARATION

SMISOL® Frio is a copper tube produced by Serravalle Copper Tubes S.r.l. according with:

- EN 12735-1 Copper and copper alloys - Seamless, round copper tubes for air conditioning and refrigeration – Part 1: Tubes for piping systems (and ASTM B68/M for sizes 14x1 and 16x1 mm)

SMISOL® Frio is made with copper phosphorus deoxidized, minimum 99.9% Cu (CW024A – Cu-DHP). It is pre-insulated with regular sized, uniformly distributed closed-cell polyethylene foam sleeving, manufactured without CFC and HCFC.

The quality of the inner surface is obtained by technological processes and all tubes are closed at the ends to safeguard the internal cleaning of the tube until it is installed.

Due to these characteristics **SMISOL® Frio** is suitable for the following applications:

- Refrigeration
- Transport of heat transfer fluids for multi-function systems

(In compliance with local applicable regulations)
