

January 2025

DECLARATION

SMISOL® Gas is a copper tube produced by Serravalle Copper Tubes S.r.l. according with:

- **EN 1057** Copper and copper alloys - Seamless, round copper tubes for water and gas in sanitary and heating application

SMISOL® Gas is made with copper phosphorus deoxidized, minimum 99.9% Cu (CW024A – Cu-DHP) and is sheathed with a special continuous PVC covering with a full cross-section (without air channels).

Due to these characteristics **SMISOL® Gas** is suitable for the following applications:

- Distribution of liquid and gaseous fuels with particular reference to underground trenching.

(In compliance with local applicable regulations)

During manufacture, the tubes are subjected to a treatment for passivation and stabilization of the internal walls.
