

## DECLARATION

**SMISOL®Più** is a copper tube produced by Serravalle Copper Tubes S.r.l. according with:

- **EN 1057** Copper and copper alloys - Seamless, round copper tubes for water and gas in sanitary and heating application

**SMISOL®Più** is made with copper phosphorus deoxidized, minimum 99.9% Cu (CW024A – Cu-DHP) and is sheathed with a special continuous PVC covering with a star-shaped cross-section.

Due to these characteristics **SMISOL®Più** is suitable for the following applications:

- Drinking water distribution
- Transport of liquid and gaseous fuels
- Heating applications

(In compliance with local applicable regulations)

During manufacture, the tubes are subjected to a treatment for passivation and stabilization of the internal walls, thus assuring absolute compliance to the potability parameters required by European legislation for transported drinking water (Directive EU 2020/2184).
