

January 2025

## DECLARATION

**Strato** is a composite seamless copper-PE tube produced by Serravalle Copper Tubes S.r.l. according with:

- **UNI 11342** Composite seamless copper-PE tubes for fluid distribution

**Strato** is made with copper phosphorus deoxidized, minimum 99.9% Cu (CW024A – Cu-DHP) and pre-insulated during production with polyethylene foam conforming to Reg. CEE/EU 2037/2000.

Due to these characteristics **Strato** is suitable for the following applications:

- Drinking water distribution
- Heating applications
- Chilled water distribution

(In compliance with local applicable regulations)

**Strato** is compatible with all coupling and fittings complaint to EN 1254-8 normally used with multilayer tubing.
