

Environmental labeling of packaging intended for Copper Tubes

This label is provided in compliance with European Commission Decision 97/129/EC of 28 January 1997 establishing the identification system for packaging materials pursuant to Directive 94/62/EC of the European Parliament and of the Council on packaging and packaging waste, Legislative Decree 116 of 3 September 2020 and Ministerial Decree 360 of 28 September 2022 adopting the "Guidelines on the labelling of packaging pursuant to art. 219, paragraph 5, of Legislative Decree 3 April 2006, n. 152".

For neutral packaging, with particular reference to transport packaging intended for B2B (commercial and/or industrial), the obligation to identify and classify the composition material of the packaging is considered fulfilled, where the manufacturer makes available this information through transport documents.

Serravalle Copper Tubes srl has decided to adopt this information sheet, referred to in transport documents, for the communication of the composition material (i.e. alphanumeric encodings as per Decision 97/129/EC) of the packaging used.
